Petrol level indicator	Petrol pressure sensor	Petrol pressure sensor	Petrol pressure sensor	Petrol pressure sensor	Petrol pressure sensor	RPM amplifier	INJECTORS	INJECTORS
Emulator for petrol level indicator to reset the right level for the car using electronic system to calculate the level ONLY for PEUGEOT / CITROEN VALVETRONIC	Emulatore keep costan tension value of petrol pressure pump during gas mode avoid check-engine lamp on.	Emulatore keep costan tension value of petrol pressure pump during gas mode avoid check-engine lamp on.	Emulatore keep costan tension value of petrol pressure pump during gas mode avoid check-engine lamp on. <b>PROGRAMMABLE WITH KIT AEB011N cod. 1570001</b>	Emulatore keep costan tension value of petrol pressure pump during gas mode avoid check-engine lamp on.	Emulatore keep costan tension value of petrol pressure pump during gas mode avoid check-engine lamp on.	RPM Amplifier/multiplier <b>(ATTENTION: using LOVATO EASY FAST OBDII System, we can take RPM signal from injectors signal)</b>	Injectors emulator only for the car start check lamp with this kind of problem( only if strictly necessary )	Injectors emulator only for the car start check lamp with this kind of problem.
